## Education

---

### Software University (SoftUni)

Web Development with C#

September 2024 – December 2025

Participated in a structured software development program focused on real-world skills and technologies. Emphasis on practical, project-based learning and writing clean, maintainable code. Gained hands-on experience with ASP.NET for building dynamic, server-side web applications and APIs.

### University of Economics – Varna

Accounting and Control

Master's degree

2023 – 2026

Accounting and Audit

Bachelor's degree

2019 – 2023

### Vocational High School of Economics and Management – Ruse

Operational Accounting

Professional degree

2014 – 2019

## Technical Skills

---

- C#
- ASP.NET Core
- Entity Framework Core
- JavaScript
- ReactJS
- Next.js
- Tailwind CSS
- HTML & CSS
- Postgres
- MSSQL

## Profession Experience

---

### Freelance Web Developer

#### C# / ASP.NET Core / PostgreSQL / React / Next.js / TypeScript

- Developed and delivered real client-facing web projects using React, Next.js, TypeScript, Tailwind CSS, C#, ASP.NET Core, Entity Framework Core, PostgreSQL, Docker, Git, and GitHub.
- Built and deployed live business websites, including an accounting services website and a full-stack photography platform, both structured for real users, responsive access, multilingual content, and professional business presentation.
- Developed DG Vision Studio as a full-stack solution with a React/TypeScript frontend and ASP.NET Core backend, including portfolio categories, albums, galleries, admin management, authentication logic, API integration, and PostgreSQL database support.
- Created a modern accounting services website with Next.js and TypeScript, focused on clean UI, structured service presentation, responsive design, light/dark theme behavior, multilingual support, and production-oriented deployment.
- Worked on PaladinHub as a larger software platform involving forum-style functionality, online shop concepts, user accounts, roles, admin area, product/content management, discussions, and database-driven workflows.

- Implemented practical full-stack features such as CRUD operations, contact forms, admin dashboards, portfolio management, authentication, database models, API communication, routing, reusable UI components, and deployment preparation.
- Currently preparing additional commercial projects, including a second photography website, an online medicine import/catalog platform from China, a dance school website, a catalog and ordering system for cleaning product distribution from Israel, and a law office website.
- Gained hands-on experience in working with real client requirements, project planning, UI/UX decisions, database design, backend structure, version control, hosting preparation, and adapting web solutions to different business sectors.

## **Audit Assistant – KPMG Audit Bulgaria**

**May 2023 – May 2024**

- Executed core audit procedures, including review of documents, payroll recalculations, participation in stock counts, and testing of internal controls.
- Collaborated directly with client finance teams to gather and assess documentation, perform account reconciliations, and identify discrepancies.
- Applied KPMG audit methodology, ensuring full compliance with IFRS, IAS, and NAS.
- Contributed to multiple engagements simultaneously, consistently meeting tight deadlines while upholding high standards of accuracy and professionalism.
- Developed strong technical expertise in Excel, Word, and large database management (Power BI), alongside advanced communication and analytical skills in a fast-paced, client-facing environment.

## **Ga Expert Accountant, Coca-Cola Hellenic Business Services Organization EOOD, Varna**

**December 2025 – Present**

- Supported month-end close activities, financial reporting, account reconciliations, and analysis of fixed asset-related balances.
- Ensured compliance with IFRS requirements, internal company policies, and established accounting procedures
- Involved in general accounting activities with a strong focus on Fixed Assets and CAPEX processes.
- Supported month-end close activities, financial reporting, balance reviews, and reconciliation preparation.
- Ensured compliance with IFRS requirements, internal company policies, and established accounting procedures.
